Overall 7.0 Good User

The test taker has operational command of the language, though with occasional inaccuracies, inappropriate usage and misunderstandings in some situations. They generally handle complex language well and understand detailed reasoning.

Test Score

Your result explained

Advice to improve your score
Listen to current affairs and documentary programmes, or online talks, without pausing or repeating the recording. Try to remember as much as you can, including new words, main ideas, specific points, and their relationship to each other. Afterward, reconstruct what you've heard. How much are you able to reconstruct? Listen more and try to increase the amount that you can reconstruct. When speakers don't directly say what they mean, we use strategies to guess their meaning. What are some of these strategies that you use in your own language? Use the same strategies to understand them in English.

Listening 7.5

Test takers at Band 7.5 can typically follow extended speech and understand detailed instructions to complete tasks, including some involving complex ideas. They can identify ideas, attitudes, opinions or purposes which are implied by the speaker but not directly stated. They can easily understand meaning, including references within and between sentences, without having to process individual words and structures. They can understand a wide range of vocabulary, including some idiomatic, technical, and academic language, even when the language and ideas are complex.

At this level, it is important to broaden the range of texts you read further. Continue to develop your awareness of how to read different types of texts differently. What features does that particular type of text typically have? How is information structured and arranged in such texts? Will it require making inferences? Will there be a summary somewhere? Use your knowledge of these and approach the reading task in an appropriate way. Where you want to know the overall argument or specific arguments, try to do this as efficiently as possible. As an exercise, try to find several opinion-based texts on the internet, and then determine the similarities and differences in their opinions and views.

Reading 7.5

Test takers at Band 7.5 can typically deal with a variety of factual and opinion-based texts that may be complex and dense with information. They are very good at using their wide vocabulary knowledge to create meaning, both within and across sentences, on a range of general and specialised topics. They can follow an argument and distinguish between main ideas and supporting details, and are good at understanding attitude, opinion and implication. They are able to do this by using reading strategies such as skimming and scanning, and by synthesizing information and drawing inferences.

Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?

Speaking 6.5

Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.

Most Recent Test Date: November 22, 2021

Date of Birth: August 8, 1999

Registration Number: 0296634
Print Date: November 30, 2021**About Your GRE® Score Report****Score Reporting Policies**

With the *ScoreSelect*® option, you can decide which test scores to send to the institutions you designate. There are three options to choose from:

- Most Recent option – Send your scores from your most recent test administration
- All option – Send your scores from all administrations in the last five years
- Any option – Send your scores from one OR as many test administrations in the last five years (this option is not available on test day when you select up to four FREE score reports)

Scores for a test administration must be reported in their entirety. Institutions will receive score reports that show only the scores that you selected to send to them. There will be no special indication if you have taken additional GRE tests. See the *GRE® Information Bulletin* for details. The policies and procedures explained in the Bulletin for the current testing year supersede previous policies and procedures in previous bulletins.

Scores will be sent to designated score recipients approximately 10-15 days after a computer-delivered test and 5 weeks after a paper-delivered test. If your scores are not available for any reason, you will see "Not Available" in Your Test Score History.

GRE test scores are reportable according to the following policies:

- For tests taken prior to July 1, 2016, scores are reportable for five (5) years following the testing year in which you tested (July 1 – June 30). For example, scores for a test taken on May 15, 2015, are reportable through June 30, 2020. GRE scores earned prior to August 2011 are no longer reportable.
- For tests taken on or after July 1, 2016, scores are reportable for five (5) years following your test date. For example, scores for a test taken on July 3, 2016, are reportable through July 2, 2021.

Note: Score recipients will only receive scores from test administrations that you have selected to send to them.

Percentile Rank (% Below)

A percentile rank for a test score indicates the percentage of test takers who took that test and received a lower score. Regardless of when the reported scores were earned, the percentile ranks for General Test and Subject Test scores are based on the scores of all test takers who tested within the most recent three-year period.

Retaking a GRE Test

You can take the *GRE*® General Test *once every 21 days*, up to *five times* within any continuous rolling 12-month period (365 days). This applies even if you canceled your scores on a test taken previously. You can take the paper-delivered GRE General Test and *GRE*® Subject Tests as often as they are offered.

Note: This policy will be enforced even if a violation is not immediately identified (e.g., inconsistent registration information) and test scores have been reported. In such cases, the invalid scores will be canceled and score recipients will be notified of the cancellation. Test fees will be forfeited.

For More Information

For information about interpreting your scores, see *Interpreting Your GRE Scores* at www.ets.org/gre/understand.

For detailed information about your performance on the Verbal Reasoning and Quantitative Reasoning sections of the computer-delivered GRE General Test, access the free GRE Diagnostic Service from your ETS account. This service includes a description of the types of questions you answered right and wrong, the difficulty level of each question, and the time spent on each question. This service is available approximately 15 days after your test administration and for six months following your test administration.

If you have any questions concerning your score report, email GRE Services at gre-info@ets.org or call 1-609-771-7670 or 1-866-473-4373 (toll free for test takers in the U.S., U.S. Territories and Canada) between 8 a.m. and 7:45 p.m. (New York Time).

Date of Birth: December 2, 1998

Registration Number: 0296595
Print Date: November 30, 2021**About Your GRE® Score Report****Score Reporting Policies**

With the *ScoreSelect*® option, you can decide which test scores to send to the institutions you designate. There are three options to choose from:

- Most Recent option – Send your scores from your most recent test administration
- All option – Send your scores from all administrations in the last five years
- Any option – Send your scores from one OR as many test administrations in the last five years (this option is not available on test day when you select up to four FREE score reports)

Scores for a test administration must be reported in their entirety. Institutions will receive score reports that show only the scores that you selected to send to them. There will be no special indication if you have taken additional GRE tests. See the *GRE® Information Bulletin* for details. The policies and procedures explained in the Bulletin for the current testing year supersede previous policies and procedures in previous bulletins.

Scores will be sent to designated score recipients approximately 10-15 days after a computer-delivered test and 5 weeks after a paper-delivered test. If your scores are not available for any reason, you will see "Not Available" in Your Test Score History.

GRE test scores are reportable according to the following policies:

- For tests taken prior to July 1, 2016, scores are reportable for five (5) years following the testing year in which you tested (July 1 – June 30). For example, scores for a test taken on May 15, 2015, are reportable through June 30, 2020. GRE scores earned prior to August 2011 are no longer reportable.
- For tests taken on or after July 1, 2016, scores are reportable for five (5) years following your test date. For example, scores for a test taken on July 3, 2016, are reportable through July 2, 2021.

Note: Score recipients will only receive scores from test administrations that you have selected to send to them.

Percentile Rank (% Below)

A percentile rank for a test score indicates the percentage of test takers who took that test and received a lower score. Regardless of when the reported scores were earned, the percentile ranks for General Test and Subject Test scores are based on the scores of all test takers who tested within the most recent three-year period.

Retaking a GRE Test

You can take the *GRE*® General Test *once every 21 days*, up to *five times* within any continuous rolling 12-month period (365 days). This applies even if you canceled your scores on a test taken previously. You can take the paper-delivered *GRE* General Test and *GRE* Subject Tests as often as they are offered.

Note: This policy will be enforced even if a violation is not immediately identified (e.g., inconsistent registration information) and test scores have been reported. In such cases, the invalid scores will be canceled and score recipients will be notified of the cancellation. Test fees will be forfeited.

For More Information

For information about interpreting your scores, see *Interpreting Your GRE Scores* at www.ets.org/gre/understand.

For detailed information about your performance on the Verbal Reasoning and Quantitative Reasoning sections of the computer-delivered *GRE* General Test, access the free *GRE* Diagnostic Service from your ETS account. This service includes a description of the types of questions you answered right and wrong, the difficulty level of each question, and the time spent on each question. This service is available approximately 15 days after your test administration and for six months following your test administration.

If you have any questions concerning your score report, email GRE Services at gre-info@ets.org or call 1-609-771-7670 or 1-866-473-4373 (toll free for test takers in the U.S., U.S. Territories and Canada) between 8 a.m. and 7:45 p.m. (New York Time).

Overall Band Score

Overall 6.5 Competent User

The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations.

Advice to improve your score

Test Score

Your result explained
Test takers at Band 6.5 can typically follow extended speech and understand detailed instructions. They can generally understand directly-stated facts, attitudes, opinions and purposes. They can also generally pick out main ideas, and relevant and irrelevant information; and can also generally infer implied meanings. They can do this without having to process individual words and structures and can remember enough of what they have heard to understand references such as pronouns. They can understand most vocabulary relating to a range of topics, including some terms typical of academic English.

Continue to develop your vocabulary by reading widely. Listen to as much English as you can so that your understanding becomes more automatic. Listen to longer recordings such as interviews and films, with and without English subtitles, pausing and repeating the recording when necessary. Note the words you didn't understand immediately, so you can review them. Try to understand those times when the speakers don't directly say what they mean. What are the clues you use to understand these in your own language? Use the same strategy to understand them in English.

Listening 6.5

Test takers at Band 6.5 can typically deal with a range of factual and opinion-based texts that may be relatively complex and dense with information. They are good at using their vocabulary knowledge to create meaning, both within and across sentences, on a range of general topics and some specialised ones. They can understand implied meanings, and have some ability to understand somewhat complex opinions and arguments. They can generally use reading strategies such as skimming and scanning, and can generally synthesize information and draw inferences.

Try to read different types of texts, including general and academic texts, and not just in your subject area. In general interest articles, the main point may come in a different place than you expect. In academic texts there will be fewer opinions, or they may be harder to spot. On the other hand, they can be dense with information. Be aware of the differences, and adjust the reading strategies you use depending on the text you're reading. Decide when to read carefully and when to read quickly. In any case, you may want to give yourself a set amount of time, so that even your careful reading is done more quickly and efficiently.

Reading 6.5

Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.

Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?

Overall Band Score

Overall	6.5	Competent User	The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations.
Test	Score	Your result explained	Advice to improve your score
Listening	7.5	<p>Test takers at Band 7.5 can typically follow extended speech and understand detailed instructions to complete tasks, including some involving complex ideas. They can identify ideas, attitudes, opinions or purposes which are implied by the speaker but not directly stated. They can easily understand meaning, including references within and between sentences, without having to process individual words and structures. They can understand a wide range of vocabulary, including some idiomatic, technical, and academic language, even when the language and ideas are complex.</p>	<p>Listen to current affairs and documentary programmes, or online talks, without pausing or repeating the recording. Try to remember as much as you can, including new words, main ideas, specific points, and their relationship to each other. Afterward, reconstruct what you've heard. How much are you able to reconstruct? Listen more and try to increase the amount that you can reconstruct. When speakers don't directly say what they mean, we use strategies to guess their meaning. What are some of these strategies that you use in your own language? Use the same strategies to understand them in English.</p>
Reading	6.0	<p>Test takers at Band 6 can typically deal with a range of factual and opinion-based texts that may be relatively complex and dense with information. They are good at using their vocabulary knowledge to create meaning, both within and across sentences, on a range of general topics and some specialised ones. They can understand implied meanings, and have some ability to understand somewhat complex opinions and arguments. They can generally use reading strategies such as skimming and scanning, and can generally synthesize information and draw inferences.</p>	<p>Try to read different types of texts, including general and academic texts, and not just in your subject area. In general interest articles, the main point may come in a different place than you expect. In academic texts there will be fewer opinions, or they may be harder to spot. On the other hand, they can be dense with information. Be aware of the differences, and adjust the reading strategies you use depending on the text you're reading. Decide when to read carefully and when to read quickly. In any case, you may want to give yourself a set amount of time, so that even your careful reading is done more quickly and efficiently.</p>
Speaking	6.0	<p>Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.</p>	<p>Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?</p>
