7.1.2 : The Institution has facilities and initiatives for

- 1. Alternate sources of energy and energy conservation measures**
- 2. Management of the various types of degradable and nondegradable waste**
- 3. Water conservation**
- 4. Green campus initiatives**
- 5. Disabled-friendly, barrier free environment**

Response :

1.The institution has facilities for alternate sources of energy and energy conservation measures.

LED bulbs:

In our campus 60.86% of lighting source comes from LED bulbs. LED lights are energy-efficient, long-lasting, and emit less heat. They use up to 90% less energy than incandescent bulbs, last up to 40 times longer, and offer high-quality light output.

- **Solar Panel:** Solar energy is a renewable energy source and reduces carbon emissions. It offers healthier environment and clean air through the reduction of greenhouse gas emissions. It reduces electricity bills. KVSRSOCPS has installed a 50 KW on grid Solar roof top power plant as a move towards reducing carbon footprint and global warming.

Solar Panel

2.Management of the following types of degradable and non-degradable waste

Our institute has taken several measures in maintaining a clean and green campus with eco-friendly policies such as

- Solid waste management
- Liquid waste management
- Biomedical waste management
- E-waste management
- Hazardous Chemicals and Radioactive Waste Management

Solid Waste Management : The institution carefully monitors effective management of solid waste in the campus, making sure that bins are provided separately for dry and wet waste at every corner of the corridor and at wash rooms. Empty chemical bottles, reagent containers are disposed on a regular basis. Awareness programmes are organized on waste management. To sustain eco-friendly and green enabled campus, various NSS programs like Swatch Bharat, Clean & Green activities and plantation in campus are regularly conducted.

 PHARMACEUTICAL SCIENCES
 VIJAYAWADA-520 010.

Liquid Waste Management: The institution channelizes waste water from all the laboratories to underground channels for disposal.

Biomedical Waste Management: Animal waste in pharmacology laboratory is disposed in deep pits which are covered and closed with thick layer of earth. Biomedical waste is collected, transported and disposed by SAFENVIRON UNIT II.

E-Waste Management: The waste generated from obsolete Electronic equipment, Computer monitors, CPU's, and other E-waste is collected by "EESHAN ENERGY" who undertake recycling activities. Remaining wastes are disposed of through Municipal agency.

Hazardous Chemicals and Radioactive Waste Management

Crockery and broken glassware of any sort is considered hazardous waste and are disposed appropriately. Hazardous chemicals used in the labs are diluted and safely flushed out of reach of the students. Faculty monitors the students for careful use and handling of hazardous chemicals. Exhaust fans are installed to remove noxious gases from all the laboratories. Fuming chamber with outlet is provided in the Chemistry Laboratory. Precautionary messages are displayed in all the labs and flyers are distributed to different stake holders to avoid mishandling of devices.

5. The institution has disabled-friendly, barrier free environment

- i. Built environment with ramps/lifts for easy access to classrooms.
- ii. Disabled friendly washrooms
- iii. Signage including tactile path, lights, display boards and signposts
- iv. Assistive technology and facilities for persons with disabilities(divyangajan) accessible website, screen reading software, mechanized equipment
- v. Provision for enquiry and information : human resistance, reader, scribe, soft copies of reading material, screen reading

Creating disabled-friendly facilities in institutions is essential to ensure accessibility and inclusion for individuals with disabilities. Therefore, at KVSRSOPS we provide accessible entrances and exits with ramps and sloped pathways. Lift facility is provided to reach all the floors. Accessible restrooms are maintained.
