7.3: Institutional Distinctiveness

7.3.1: Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words

OPEN, SUPPORTIVE AND INCLUSIVE LEARNING ECOSYSTEM WITH A LEARNER-CENTERED HOLISTIC APPROACH

This institution has established itself as a distinguished institution in the state as a first private self finance college and renowned for its academic excellence, sporting ability, and diverse extracurricular offerings. The college started with modest beginnings but progressed on a prosperous journey and reached a significant milestone of commemorating its Silver Jubilee - 25 successful years of existence in 2019.

CURRICULUM AND TEACHING METHODOLOGY:

A well-designed curriculum and effective teaching methodology set our pharmacy college apart from others. The college has a curriculum planning other than affiliated university that is regularly updated to meet industry demands, it ensures that students are well-equipped to handle the challenges of the health care industry.

Innovative teaching methodologies, such as ICT based, case-based learning using software & simulation exercises, 3D learning are the distinguishing feature of our college.

The use of 3D learning in pharmacy education can provide many benefits to both students and educators. 3D learning involves the use of three-dimensional models and simulations to enhance the learning experience.

In pharmacy education, 3D models can be used to help students better understand the structure and function of various drug molecules and how they interact with the body, they can understand complex anatomy and physiology concepts. Overall, incorporating 3D learning into our college provides student with a more interactive and engaging learning experience, while also helping them to better understand complex concepts and improve their clinical skills.

Web: www.kvsrsiddharthapharma.edu.in

RESEARCH AND INNOVATION:

Research holds a significant place in the thoughts of both the students and faculty, as evident in the high-quality work produced for the betterment of society and humanity. Consequently, the college has founded Post Graduate Programs and Research Centre. The active IQAC, engaged alumni, and exceptional work carried out by various committees have propelled the college to the forefront in various domains and realized the idea of comprehensive development of individuals

The SPIIC (Siddhartha Innovation and Incubation Center) has been established with the sole purpose of conducting research for the betterment of society. To further augment its research capabilities, SPIIC has collaborated with Accurate Labs, NABL Accredited Testing Laboratory which possesses advanced equipments like GCMS, FTIR, HPLC, ICP-OES, BOD Incubator, Microbiology lab with Biosafety cabins, etc.

Students are exposed to new technologies and emerging trends in the field. This exposure can be invaluable in preparing pharmacy students for future careers, as it allows them to gain practical experience in the latest developments.

INDUSTRY COLLABORATIONS AND PLACEMENTS:

Industry collaborations are an essential aspect of our efforts to provide students with a comprehensive and industry-relevant education. We have established partnerships with several leading pharmaceutical companies and healthcare organizations, which have helped us in various ways. Firstly, industry collaborations have enabled us to keep our curriculum up-to-date and relevant to the latest industry trends and requirements. We regularly consult with our industry partners to understand their needs and expectations, and we incorporate their feedback into our teaching and research activities. Secondly, our collaborations have facilitated numerous consultancy works, Industry visits, Placements, etc. providing our students with hands-on experience and exposure to the latest technological advancements in the industry.

Finally, our industry collaborations have also been instrumental in providing internship and placement opportunities for our students. In conclusion, our industry collaborations have been critical in our efforts to provide a well-rounded and industry-relevant education to our students. We

E-mail : kvsrsiddharthapharma@gmail.com

Web: www.kvsrsiddharthapharma.edu.in

look forward to continuing and expanding our collaborations in the future, creating new opportunities for our students and contributing to the growth and development of the pharmaceutical industry.

The placement cell of our college has significantly improved over the years, and this can be attributed to the contribution of our alumni. The alumni network has helped bridge the gap between the academic and corporate world, providing students with valuable insights into the industry and its requirements. Our alumni have also been active in mentoring our students, guiding them on career choices and helping them develop the necessary skills to succeed in the industry. They regularly visit the campus to interact with the students, share their experiences, and provide them with guidance and support.

STUDENTS PARTICIPATION AND INVOLVEMENT IN CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES:

Encouraging student participation in co-curricular activities in our college is a distinctive aspect of the educational experience.

Participating in co-curricular activities can provide students with a range of benefits. For example, it can help them develop leadership skills, teamwork skills, and time management skills. Co-curricular activities can also provide opportunities for students to network with peers and professionals which can be beneficial for their future career paths.

Additionally, co-curricular activities help our students to develop a sense of community and belonging within the college. This can be particularly important for students who may be feeling isolated or disconnected from their peers. Participating in co-curricular activities can also help students develop a sense of pride and loyalty towards their institution, which can increase their engagement and motivation to succeed academically.

In general, promoting student involvement in co-curricular activities is a unique feature of our college experience, as it offers students the chance to acquire abilities, establish connections, and develop a sense of affiliation.

Report on Institutional Distinctiveness

Curricular and Teaching methodology: KVSRSOCPS took a step ahead by including 3D learning technology which enhances visualization there by adds a deeper understanding of the subject matter, particularly in fields like anatomy, chemistry, etc. Interactive Simulations replicate real-life scenarios. This assists the students to engage in virtual experiments providing hands-on approach and enhances their problem-solving skills and critical thinking abilities. Case study software finds important applications in research and academic studies, facilitating data collection, analysis, and interpretation.

Students of KVSRS COPS get involved in **free medical camps** every year. Students observe and assist healthcare professionals in diagnosing and treating patients, gaining hands-on exposure to real-life medical scenarios and prepares them for their future careers. Participating in free medical camps fosters a sense of social responsibility and empathy among students.

KVSRSCOPS offers **skill development programs and Intern ships** to all the students. They offer practical application of knowledge, industry exposure, skill enhancement, networking opportunities, and improved job readiness. These programs are essential for bridging the gap between academic education and the demands of the professional world, empowering students to succeed in their chosen careers.
